Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

That, where the plenum system is employed for heating and ventilation, the intake should be located above the street level in order to avoid using dusty air, and that in such cases, adequate provision be made to properly humidify the air with steam. 11. That it is desirable for the janitor s house to be near the rural schools in every case, in order to insure adequate supervision over the heating system during the winter time. 12. That all vertical bubbling fountains be replaced by safe and sanitary ones of the type described in the report. 13. That the use of water buckets and coolers be prohibited, and in their places, water coolers having desirable bubbling fountain attachments be substituted. 14. That the use of the common drinking cup be prohibited. 15. That the well at the Colburn School be adequately protected against surface drainage or be replaced by a safely protected driven well. 16. That the horse-shoe shaped toilet seat be exclusively used in all the schools. 17. That the open privies now in use at the Montmorenci and Battle Ground schools be removed, and that at the Shadeland, Ellston, Ouiatenon, and Salem (Wabash Township) schools, where running water is available, the privies be removed and indoor sanitary toilet facilities be provided. Similarly, the toilet facilities at the Morton School in West Lafayette, should be replaced by indoor sanitary toilets. Likewise,...
