

## Field Manual FM 4-02 Army Health System August 2013

By United States Government US Army

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 144 pages. Dimensions: 11.0in. x 8.5in. x 0.3in. This publication provides doctrine for the Army Health System (AHS) in support of the modular force. The AHS is the overarching concept of support for providing timely AHS support to the tactical commander. It discusses the current AHS force structure modernized under the Department of the Army (DA)-approved Medical Reengineering Initiative and the Modular Medical Force that is designed to support the brigade combat teams (BCTs) and echelons above brigade (EAB) units. As the Army's AHS doctrine statement, this publication identifies medical functions and procedures that are essential for operations covered in other Army Medical Department (AMEDD) proponent manuals. This publication depicts AHS operations from the point of injury, illness, or wounding through successive roles of care within the area of operations (AO) and evacuation to the continental United States (CONUS)-support base. It presents a stable body of operational doctrine rooted in actual military experience and serves as a foundation for the development of AMEDD proponent manuals on how the AHS supports unified land operations. The AHS mission falls within two warfighting functions: sustainment and protection. To clearly...

### Reviews

*This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Natalie Abbott**

*This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be playful, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.*

-- **Rene Olson**
