

Edible Fats and Oils: Their Composition, Manufacture and Analysis (Classic Reprint)

By W H Simmons

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Edible Fats and Oils: Their Composition, Manufacture and Analysis This work was originally planned by Mr. Simmons, and was intended to afford general information upon the preparation, properties and meaning of the analytical characters of oils and fats. It was not meant to replace the larger text-books on the subject, but rather to enable chemists with only a slight knowledge of the chemistry of oils and fats to apply the tests most commonly used, and to interpret their analyses, at all events in the more simple cases. Unfortunately, owing to illness, Mr. Simmons was obliged to abandon any active part in the work, which was therefore finished by the writer. It is necessary to mention these facts, because, whilst the first edition might be regarded as the joint work of two authors, the writer is solely responsible for the additions to the present edition. These additions include an extension of the chapter on margarine, and a new chapter dealing with hydrogenated oils, both of which will, it is hoped, add to the usefulness of the...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
